PRESENTS
LECTURE SERIES

**CONNECTING YOUTHS
AND CHILDREN TO
NATURE**

2022-23

About Us

Srushti Conservation Foundation (SCF):
Not for profit company, established in
January 2021.

We primarily aims to promote and
undertake biodiversity research,
community based conservation,
restoration of degraded habitats,
ecosystem-based solutions, climate
change adaptation and outreach, and
provide sound scientific knowledge for
environmentally sustainable economic
development.

Lecture Themes

- Climate Change, its impact and adapting to changing climate
- Mangroves, its biodiversity and coastal wetlands
- Coral reefs biodiversity and its hotspots
- Bird migration
- Urban Forests and its biodiversity
- Western Ghats
- Wetlands of India
- Key ecosystems of India
- Important marine and coastal habitats
- Important terrestrial habitats and Protected Areas
- Endangered species and conservation programmes of Government of India
- Why conserve nature
- Our backyard - forests and oceans and its biodiversity
- Sustainable living - Refuse, Reuse and Recycle
- Wonders of nature

Rational

Educating the school and college students of these valuable natural assets is very important in the present climate change context. SCF team with its decades of experience in nature education and public awareness, backed by highly skilled team members and volunteers, is well placed to deliver the knowledge on the themes as stated above to the youngsters and grown-ups alike.

What do we need from you?

- Student participation (between 50-100) in one online session
- Time slot: 1 hr at your convenient time and date
- A computer with good internet connection and projection facility.
- If students want to participate from home with parents, in that case email id of each participating student and teacher
- Participation in pre and post session feedback (A set of 5 questions)
